

Use the following parts when optional with 2" suction pipe

Tab. Res.  
 1. Main performance parameters:  
 a. The power of motor No.1 and No.2 is 90W;  
 b. The total capacity is 300L, silo No.1 is 180L and silo No.2 is 180L;  
 c. The conveying capacity of motor No.1 is 4.69kg/h,  
 and the conveying capacity of motor No.2 is 27.2-42kg/h (material bulk density is 0.65kg/L).  
 2. Assembly Note:  
 a. The screw shaft shall run smoothly without noise or jamming.
